

Sergei Lediankin

Frontend Developer (Vue.js) | Full-Stack Developer

Location: Stuttgart, Germany Phone: +49 160 3818097 Email: sirgeika@gmail.com	LinkedIn: linkedin.com/in/lediankin GitHub: github.com/sirgeika Work Authorization: Valid German Residence Permit (Aufenthaltstitel, fully authorized to work)
--	---

Professional Summary

Experienced Software Engineer with over 9 years specializing in modern web development with a strong focus on Vue.js, Node.js, and cloud architectures (Firebase / Google Cloud Platform). Proven track record of developing and maintaining mission-critical B2B enterprise applications for the aviation sector (Departure Control System DCS, flight booking/ticketing terminals TWT) and AI-driven web systems. Extensive hands-on experience in task coordination, code reviews, performance tuning, and frontend architecture across engineering teams of up to 5 developers. Based in Stuttgart, Germany.

Core Technical Skills

Frontend	Vue 3 (Composition API), Vue 2, Vuex, Pinia, JavaScript (ES6+), HTML5, CSS3, Vuetify, Vite, Webpack, Responsive Design, TDD
Backend & Cloud	Node.js, Firebase (Firestore, Cloud Storage), REST APIs, JSON, NoSQL, SQL
AI & LLM Integration	LLM Integration, Google Genkit, Prompt Engineering, Conversational UI, AI Agent Architecture
Practices & Tools	Git, GitLab, Agile / Scrum, Code Reviews, Release Management, CI/CD pipelines

Work Experience

Founder & Full-Stack Developer lingvochat.com	11/2024 – Present
--	--------------------------

Self-funded Startup / AI-powered language platform focused on contextual audio training

- Architected and implemented the end-to-end full-stack web application using Vue 3 (Composition API, Vuetify) and Node.js / Firebase.
- Engineered a scalable audio management pipeline using Google Cloud Storage combined with spaced repetition

system (SRS) algorithms.

- Created modular, responsive UI components optimized for handling extensive audio libraries and mobile usage.
- Integrated cost-efficient LLM agents (Google Genkit) for interactive grammar explanations and dynamic dialogue simulation.

Senior / Lead Frontend Engineer LogicEditor / JSC «ORS»	11/2021 – 07/2025
--	--------------------------

Enterprise IT solutions for international airlines, airports, and global travel agencies

- Coordinated a frontend engineering team of 2–5 developers: sprint planning, task breakdown, code reviews, and quality assurance.
- Maintained and modernized core mission-critical enterprise systems:
 - **ORS TWT (Travel Web Terminal)**: Specialized B2B web application for travel agencies, booking desks, and call centers interacting with Passenger Service Systems (PSS).
 - **ORS DCS (Departure Control System)**: High-availability airport terminal platform managing passenger check-in, baggage drop, and gate boarding operations.
- Delivered targeted client-side performance optimizations, reduced bundle sizes, and modernized build setups (Webpack / Vite).
- Worked in close collaboration with system analysts and backend engineers to satisfy stringent IATA industry criteria and high-availability demands.

Frontend Developer LogicEditor / JSC «ORS»	03/2017 – 10/2021
---	--------------------------

- Built client-side applications for airport operations and self-service check-in kiosks.
- Integrated peripheral airport hardware (scanners, boarding pass printers) and implemented complex passenger business workflows.
- Optimized build performance and application load times.

JavaScript / Lua Developer LogicEditor	10/2016 – 02/2017
---	--------------------------

- Developed scripting algorithms and core logic for browser-based CAD editors (circuit diagrams and wire harness modeling).

Earlier Experience: Software Engineer (Enterprise ERP Automation)	03/2002 – 09/2016
--	--------------------------

- Engineered business workflow and ERP solutions using the 1C:Enterprise platform (Targetika / Self-employed).

Education

Yaroslavl State Technical University (YSTU) Degree: Engineer's Degree (Specialist Diploma / M.Sc. Equivalent)	1994 – 1999
---	--------------------

Languages & Certifications

- **German**: B1 Certificate (Deutsch-Test für Zuwanderer – DTZ, Integration Course successfully completed; actively improving)

- **English:** A2/B1 (Technical documentation reading, professional written communication)
- **Russian:** Native
